KENDRIYA VIDYALAYA BANIKHET

Holidays Homework

CLASS XII

CHEMISTRY

1. Write the name reactions of Organic chemistry as per syllabus and learn them ( Already given in the class )
2. Solve all the five sample papers shared in the class.
3. Convert
  - a. Propanone to Propan-1-ol
  - b. Phenol to Salicylic acid
  - c. Acetophenone to 2-Phenylbutan-2-ol
  - d. Nitrobenzene to Aniline
  - e. Aniline to Benzonitrile
  - f. Ethanol to Ethanal
  - g. Butan-2-one to Butan -2-ol
  - h. Phenol to 2,4,6 Tribromophenol
  - i. Ethyl magnesium chloride to Propan-1-ol
  - j. Benzyl chloride to Benzyl alcohol
  - k. Ethanol to 3-hydroxy butanal
  - l. Benzaldehyde to benzophenone
  - m. Toluene to benzaldehyde
  - n. Ethyl benzene to Benzoic acid
  - o. Propanone to Propene
  - p. Ethanol to But-2-ene
  - q. Phenol to benzoquinone
  - r. Aniline to nitrobenzene
4. How will you distinguish between
  - a. Propanol and propanone
  - b. Ethanol and phenol
  - c. Ethanal and propanal
  - d. Butanal and Butan-2- one
  - e. Acetophenone and benzophenone
  - f. Methanoic acid and ethanoic acid
  - g. Benzoic acid and phenol
  - h. Benzaldehyde and Benzoic acid
  - i. Methyl amine and Dimethyl amine
  - j. Aniline and N- methyl aniline

## Holidays (Home Work)

### Class XI

#### Accountancy

1. Prepare a project on formats of Trading & P/L, A/C and Balance Sheet.
2. Revise following Chapters for Half Yearly exam and Do 2 Numerical questions of each Chapters.
